## FUEL DUMP

If you haven't read my download on my top 8 "likes" sexually, well number 8 is in there for a reason!!

Sometimes I love really really brief sex where I am being "used" for want of a better word, by you to simply get off. So your likely not interested in whether I enjoy it or not, you just need to get a load off!

You don't want a slow burn, you don't want a massage, you don't want conversation, you just need a great blow job or fast sex and then you can get on with your day.

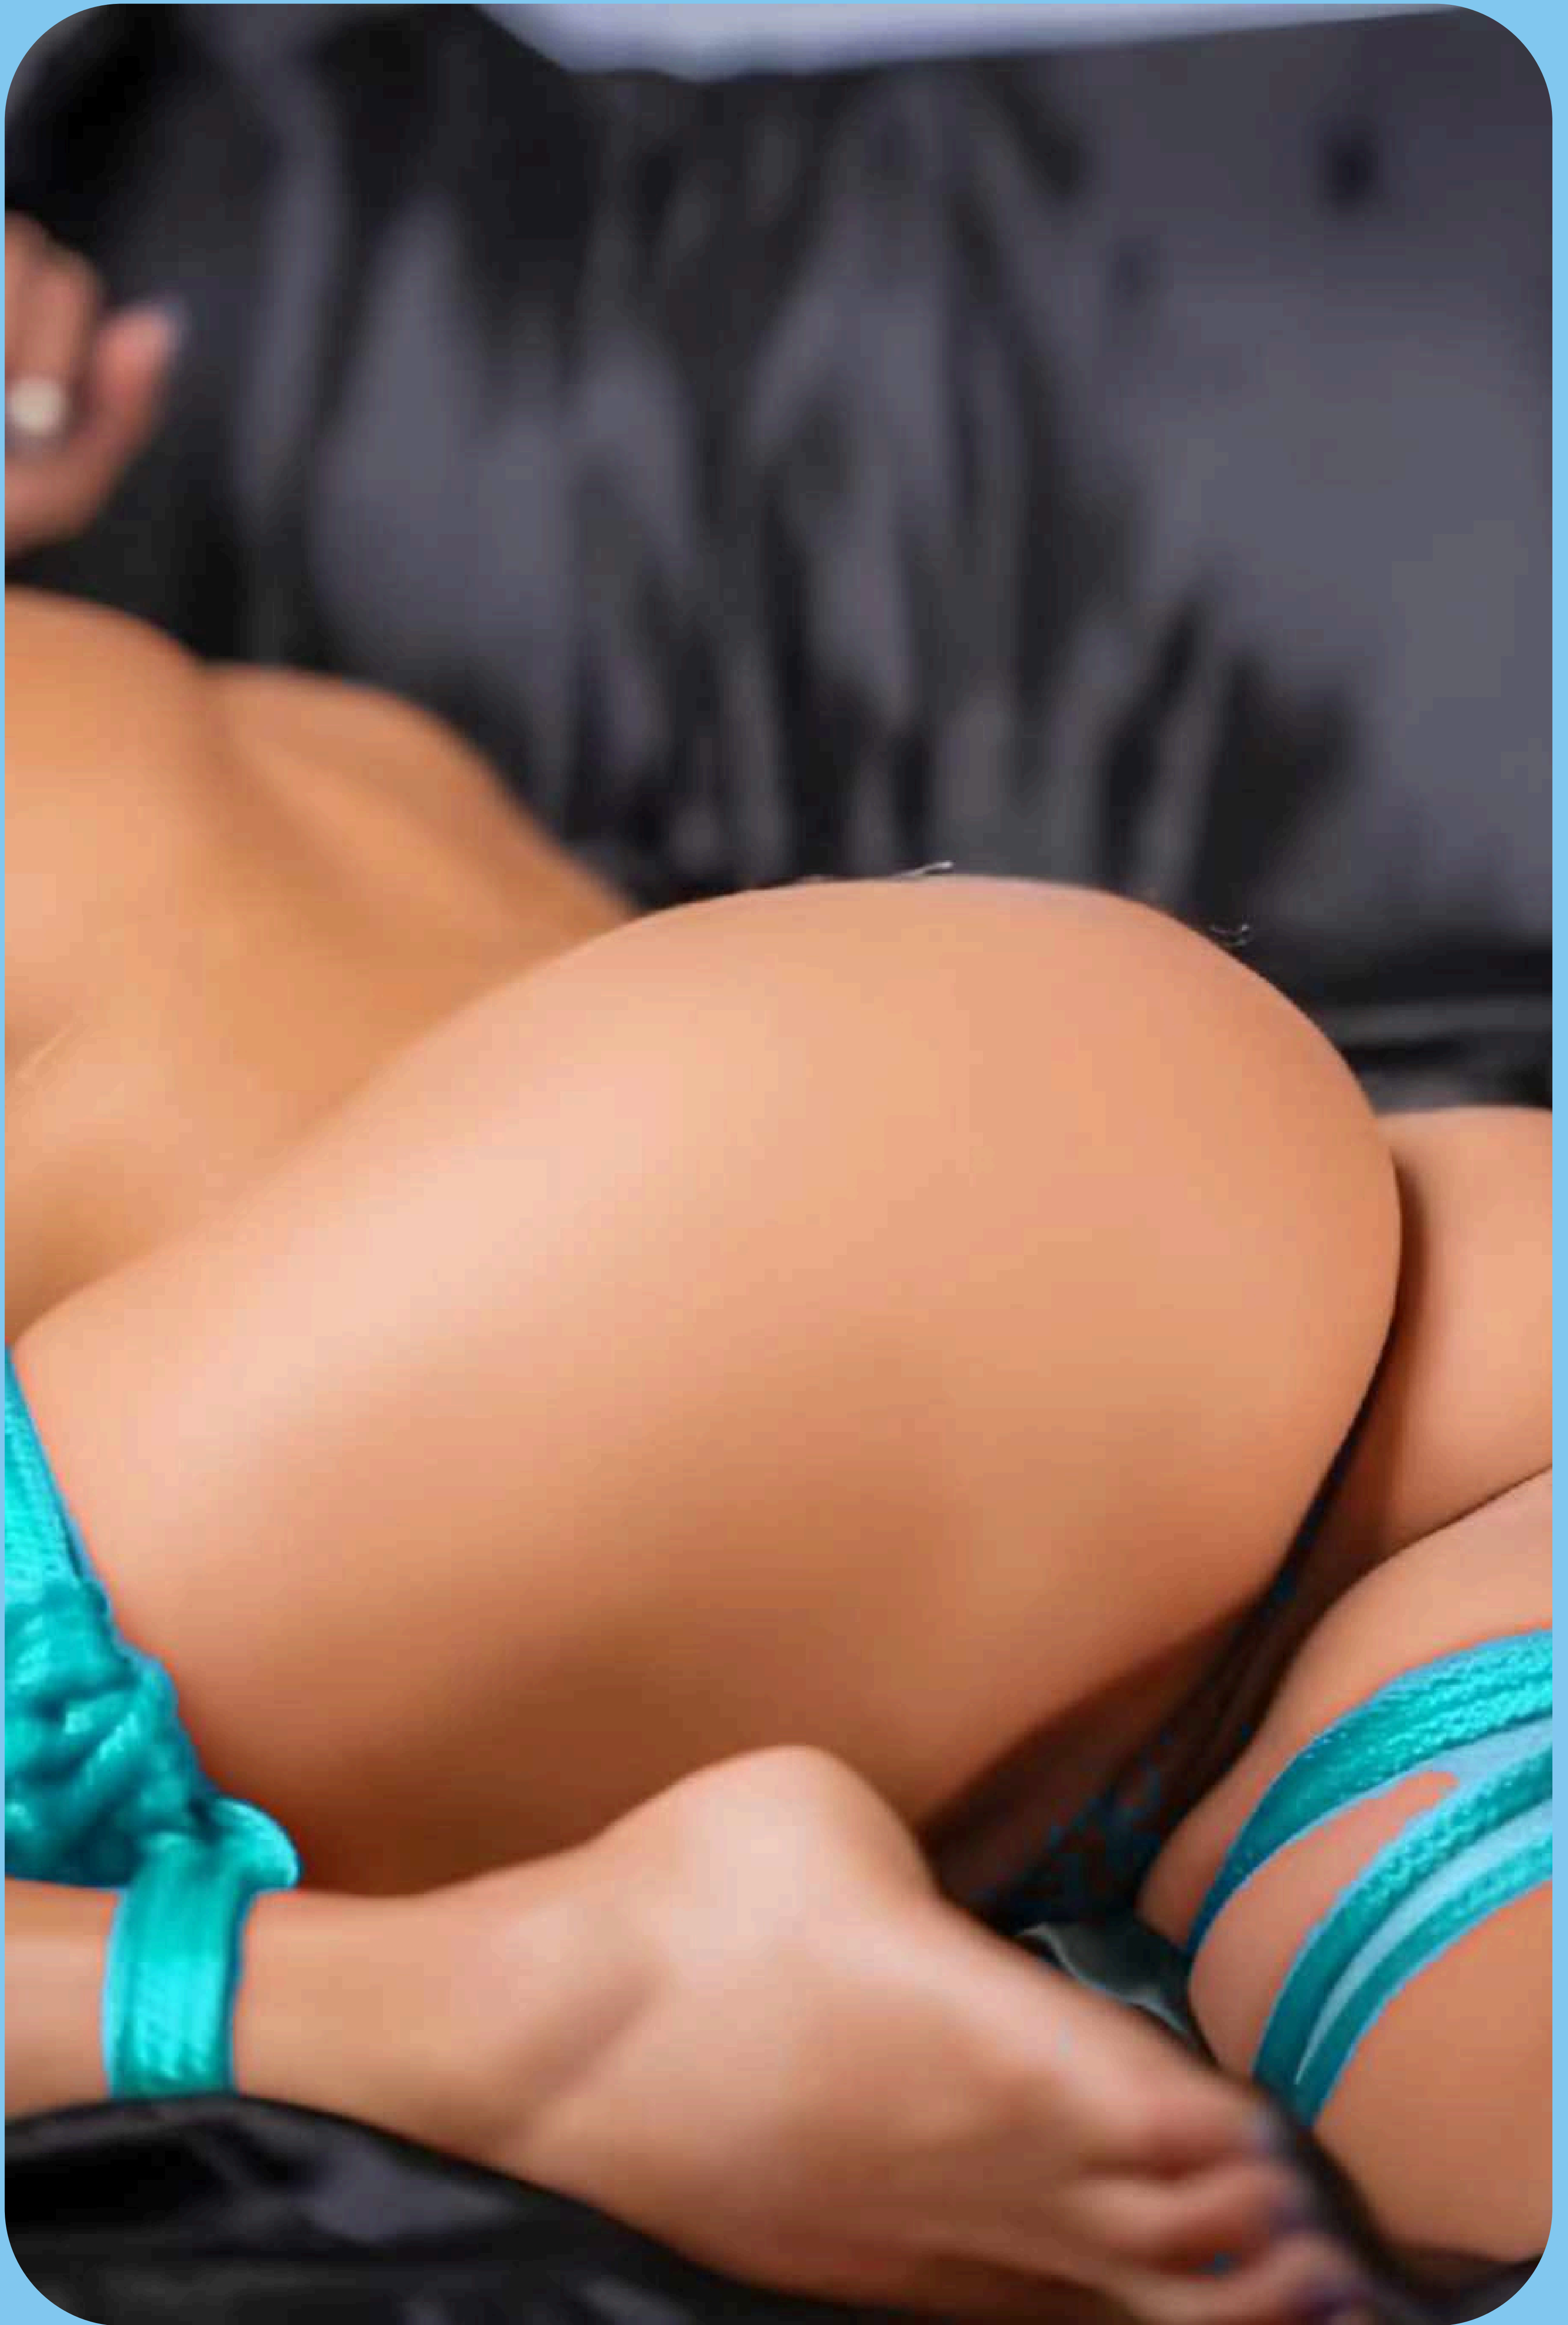

Catch me at the right time and I can provide that mouth or that pussy for your relief and get your load in me. Win win. The bigger the load the better I say!

Quick sex can be freakin awesome....

FARE?

I'm not putting that on paper anywhere. So, if you are keen for super quick just text message me that you are interested in a fuel dump and ask anything brief you need to know....if I can look after you, I 100% will.

Don't stress , due to the short time frame it's totally cost effective...

THANK YOU

Lily
