LEWINSKI STYLE

You should 1000% LOVE receiving oral.

IF you made your appointment seamlessly providing verification and deposit expediently, you present with the qualities of hygienic, polite, respectful, and warm then my own personal preference would be to provide a natural service for oral .

I feel a condom kinda defeats the purpose and takes away all my fun, and likely yours as well. However if you are not comfortable with that, that's ok too. This service absolutely includes cum in mouth, cum on face, dirty talk and you can include some humiliation and/or degradation speak if you like. Or not. Entirely up to you. This really is about you receiving the absolute best of oral worship. I can be guided by you. If you feel you can only cum once and you don't want to cum too soon, I am very, very happy to prolong your enjoyment, and I am good at that, so I can get you to last the distance by some edging. Don't worry, I won't let it "be over" too quickly. I will milk our time....

I am also more than happy to get you off once, and then try to go again. I will, as I said, be guided by you. You should just really love an enthusiastic woman with a hot, inviting mouth. I feel that I am capable of offering an amazing oral service and often am provided feedback by way of the following statement: "that was the best blow job I've ever had." Not boasting, but because it's a frequent comment, I'm confident you will love it.
